Cockle Bay - An Inclusive School

All schools have the obligation to recognise and respond to the diverse needs of their students. This includes students who are not achieving, students who are at risk of not achieving and those who have special education needs. Schools must also develop and implement teaching and learning strategies to address these needs.

This applies just as much to students who struggle to read as it does to those with obvious disabilities or who are gifted and talented.

We provide a range of extension programmes within the school

- maths extension
- dance extension
- art group
- drama extension
- Science Roadshow
- Literacy extension
- Technology Challenge
- Chess

We also arrange several workshops through the year which might involve visitors or visits out of school.

Other opportunities include becoming a School Leader, class councillors, extra curricular mandarin.
